About EDC

Entrepreneurship Development Cell (EDC) is dedicated to encourage, promote and facilitate entrepreneurial activities among B.Tech and MBA students. The Entrepreneurship Development Cell at Andhra Loyola institute of Engineering Technology , Vijayawada targets to help in the development of India's Entrepreneurial ecosystem by enabling easy and efficient interaction between its major components students, working professionals, aspiring and existing entrepreneurs, mentors, angel investors, venture capital firms and corporates through events like interactive sessions and conferences.

Vision

To prepare the students to be successful entrepreneurs by acquiring the necessary skills, knowledge and attitude to create manage and expand future enterprises.

Mission

The mission of EDC is to encourage college – level students to start their own enterprises. This, can be done by the following

- Organising Workshops and lectures periodically to create awareness about entrepreneurship.
- Functioning as a guide for the students who have creative ideas and transform them into successful entrepreneurs.
- Providing mentoring through individuals for students to launch their start up's.
- EDC Activities
- To motivate students to undergo Entrepreneurship development Programme (EDP), Skill Development training and enhance self employment opportunities.
- To organise Seminars/guest lectures/ Workshops/ industrial visits periodically to create awareness about entrepreneurship.
- To transfer the technical know-how and assist students in setting up entrepreneurs.
- To organize programmes on financial assistance and source of institutional assistance to entrepreneurs.
- To find out the entrepreneurial potential of region in selected industries.
- To publish newsletter quarterly which includes start up and entrepreneurship articles, interviews with successful entrepreneurs.
